Science Sketchers

Science Sketchers is science Pictionary. You need to know 200 science words well enough to draw each one in a few seconds, and to guess your teammate's drawings fast.

My name: _____

My partners: _____

Our meetings

Lesson	Date	What we'll do
Lesson 1	Fri Oct 16	Draw It, Guess It: Living Things
Lesson 2	Fri Nov 20	Body Parts, Tiny Parts, and Scientists
Lesson 3	Fri Jan 15	Earth and Weather Words, Plus a Full 40-Word Round
Lesson 4	Fri Feb 12	Mock Tournament: 4 Minutes, 40 Words
Lab I1	Before Lesson 2	Space and Energy Words (home or an open Friday)
Lab I2	Before Lesson 3	Matter, Force, and Motion Words (home or an open Friday)
Lab I3	Before Lesson 4	The Whole Word List (home or an open Friday)

At the tournament

Teams of 2 or 3 take turns drawing and guessing up to 40 science words from the official list in 4 minutes, with no letters, numbers, or gestures; they bring only a pencil and may look at the word list just before entering the room.

Keep every handout for this event behind this divider, in order. Bring this binder to every Diagram & Decode Fridays meeting.

Science Sketchers: What I can do

By tournament day, you should be able to do everything on this list. Check **Practicing** when you've started, and **Got it!** when you can do it without help. The lesson column tells you which handout to look back at: L = a group meeting, I = an independent lab you do at home or on an open Friday.

What I can do	Lesson	Practicing	Got it!
I can follow the drawing rules: no letters, numbers, made-up codes, or hand gestures. The only symbols I use are arrows, - and +.	L1 L4	☐	☐
I can take turns drawing and guessing with my team, and I know when to pass and move on.	L1 L4	☐	☐
I can draw and guess plant, animal, and ecosystem words (like food web, predator, pollen, metamorphosis).	L1	☐	☐
I can draw and guess human body words (like joint, digestive system, spinal cord, saliva).	L2	☐	☐
I can draw and guess atom words and scientist jobs (like proton, compound, botanist, entomologist).	L2	☐	☐
I can draw and guess Earth words: rocks, minerals, soil, and water (like igneous rock, erode, estuary, water table).	L3	☐	☐
I can draw and guess weather and climate words (like cold front, humidity, jet stream, precipitation).	L3	☐	☐
I can draw and guess space words (like orbit, eclipse, waxing moon, constellation).	I1	☐	☐
I can draw and guess energy words: heat, light, sound, electricity, and magnets.	I1	☐	☐
I can draw and guess matter, force, motion, and measuring words (like friction, mass, velocity, thermometer).	I2	☐	☐
I can start with a quick 'starter picture' (a body, a landscape, the Earth) and use an arrow to point to the part that matters.	L1 L2 L3 I2	☐	☐
I can use + and - to change a word (evaporate + = evaporation) and join two pictures for two-word terms.	L3 I1	☐	☐
As a guesser, I can call out many related words fast and watch for my drawer's nod.	L1 L3 I3	☐	☐
I know the whole official word list and can play a full 40-word, 4-minute round.	L3 L4 I3	☐	☐

Draw It, Guess It: Living Things

TODAY I CAN

- I can follow the drawing rules: no letters, numbers, made-up codes, or hand gestures. The only symbols I use are arrows, - and +.
- I can take turns drawing and guessing with my team, and I know when to pass and move on.
- I can draw and guess plant, animal, and ecosystem words (like food web, predator, pollen, metamorphosis).
- I can start with a quick 'starter picture' (a body, a landscape, the Earth) and use an arrow to point to the part that matters.
- As a guesser, I can call out many related words fast and watch for my drawer's nod.

Science Sketchers is science Pictionary: draw and guess science words fast. Today's words are about living things.

Today's steps: run it yourselves (22 minutes)

You need: Lesson 1 word cards (40, shuffled), Scrap paper stack, Lesson 1 answer card. Set the timer for each step.

1. Team 3 min. Set the timer for 3 minutes. Take turns reading The rules in one box out loud. Say what turns a word into a pass (letters, numbers, or gestures).
2. Both 4 min. Set the timer for 4 minutes. Swap Do Now drawings with your partner and guess them. Each of you picks your drawing that worked best and says why.
3. Event Judge 10 min. Split into two teams of 2 or 3. Set the timer for 2 minutes for each round. The Event Judge (from the watching team) shows each card only to the drawer; the team guesses, then the next teammate draws. The watching team raises a hand for any rule break. Switch teams; play 2 rounds each and count correct words.
4. Team 5 min. Set the timer for 5 minutes. Which drawings were fastest? Which words did you pass? Write 4 passed words in the Plan it box and sketch a better drawing for each.

Check your work: Show your Plan it drawings to the other team. If they guess a word in 10 seconds, it passes. If not, read Drawing ideas for tough words and try again.

The rules in one box

Time	4 minutes to guess up to 40 words. Every team gets the same words in the same order.
Take turns	After each word, the next teammate draws. Everyone draws and guesses.
Drawer rules	No letters, numbers, codes, or hand gestures (a rule break makes the word a pass). Nodding yes or no is OK.
Allowed symbols	Arrows. A - to shorten a word, a + to lengthen it (refract + = refraction).
Pass	Anyone can pass. You cannot go back to a passed word.
Scoring	1 point per word. Plurals count; other word forms do not.

Word bank: living things and ecosystems (40 words)

Adapt **Amphibian** **Antenna** **Bird** **Camouflage** **Carnivore** **Consumer** **Decay** **Decomposer** **Desert** **Egg** **Environment** **Exoskeleton** **Extinct** **Flower** **Food web** **Forest** **Fungus** **Germinate** **Habitat** **Herbivore** **Insect** **Leaf** **Mammal** **Metamorphosis** **Mutualism** **Omnivore** **Organism** **Parasite** **Photosynthesis** **Poison** **Pollen** **Population** **Predator** **Prey** **Producer** **Reptile** **Root** **Seed** **Stem**

Drawing ideas for tough words

Food web	Several animals and a plant, with arrows from each food to the animal that eats it.
Mutualism	A bee on a flower, and both get something (hearts over each).
Metamorphosis	Egg, caterpillar, chrysalis, butterfly, joined by arrows.

Decomposer	A mushroom or worm on a rotting log.

Plan it: 4 words our team passed, and a better drawing for each

At home before next time: Do Independent Lab I1 (Space and Energy Words) before Lesson 2. Also draw 5 words from today's word bank in 10 seconds each while a family member guesses. Case File: crack the 6 Mystery Sketches and log your family game in Case #1 (p. 8) for the Life Sketcher badge.

Body Parts, Tiny Parts, and Scientists

TODAY I CAN

- I can draw and guess human body words (like joint, digestive system, spinal cord, saliva).
- I can draw and guess atom words and scientist jobs (like proton, compound, botanist, entomologist).
- I can start with a quick 'starter picture' (a body, a landscape, the Earth) and use an arrow to point to the part that matters.

Today's words are about the human body, atoms, and the scientists who study the world. The trick: draw a starter picture, then point with an arrow.

Today's steps: run it yourselves (22 minutes)

You need: Lesson 2 word cards (40), Scrap paper, Lesson 2 answer card. Set the timer for each step.

1. Both 4 min. Set the timer for 4 minutes. Read Drawing ideas. Each of you draws a quick body outline with an arrow to the stomach, then a person with a telescope (Astronomer).
2. Both 6 min. Set the timer for 6 minutes. Sketch ideas for Chromosome, Saliva, Calorie, and Data Scientist in the Plan it box, then fill in the atom box. Show the other pair: can it be drawn faster?
3. Event Judge 8 min. Rapid-fire rounds: set the timer for 2 minutes per team, and each team plays twice. The Event Judge (from the watching team) shows each card only to the drawer; the team guesses, then the next teammate draws. The watching team raises a hand for any rule break.
4. Team 4 min. Set the timer for 4 minutes. Which scientist drawings were guessed fastest? Each student writes one new drawing idea on the back of this handout.

Check your work: Show your Plan it and atom drawings to the other pair. Any they cannot guess in 10 seconds, compare with the answer card and redraw.

Word bank: body, cells, atoms, and scientists (40 words)

Abdomen **Astronomer** **Atom** **Biologist** **Blood** **Bone** **Botanist** **Calorie** **Cell** **Chemist** **Chromosome** **Compound** **Data Scientist** **Digestive system** **Eardrum** **Electron** **Endoskeleton** **Engineer** **Entomologist** **Exercise** **Geologist** **Joint** **Mixture** **Molecule** **Muscle** **Neutron** **Organ** **Oxygen** **Physicist** **Protein** **Proton** **Saliva** **Skin** **Spinal cord** **Spine** **Stomach** **Sugar** **Teeth** **Vitamin** **Waste**

Drawing ideas

Starter picture	Draw the whole thing fast (a person, an atom), then add an arrow to the part you mean.
Scientists	Person + tool. Astronomer: telescope. Geologist: rock hammer. Entomologist: net and bug. Botanist: plant and hand lens. Chemist: bubbling flask.
Joint	A bent arm with a circle at the elbow.
Digestive system	Person outline with a tube from mouth to stomach to a curly intestine.
Atom	Dots in the middle with rings around them.
Compound vs mixture	Compound: two different balls stuck together. Mixture: a bowl of trail mix.

Plan it: sketch a fast idea for Chromosome, Saliva, Calorie, and Data Scientist

My idea for Proton, Neutron, and Electron (one atom, three arrows)

At home before next time: Do Independent Lab I2 (Matter, Force, and Motion Words) before Lesson 3. Also make 10 flashcards from today's word bank: word on the front, your 10-second drawing on the back. Keep them in your binder pocket. Case File: do Case #2: The Scientist Line-up (p. 9) and track your 10 flashcards there for the Body Sketcher badge.

Earth and Weather Words, Plus a Full 40-Word Round

TODAY I CAN

- I can draw and guess Earth words: rocks, minerals, soil, and water (like igneous rock, erode, estuary, water table).
- I can draw and guess weather and climate words (like cold front, humidity, jet stream, precipitation).
- I can start with a quick 'starter picture' (a body, a landscape, the Earth) and use an arrow to point to the part that matters.
- I can use + and - to change a word (evaporate + = evaporation) and join two pictures for two-word terms.
- As a guesser, I can call out many related words fast and watch for my drawer's nod.
- I know the whole official word list and can play a full 40-word, 4-minute round.

Today's words are about rocks, land, water, and weather. You will learn to use + and - when your team guesses almost the right word. Then you play your first full round: 40 words in 4 minutes.

Today's steps: run it yourselves (27 minutes)

You need: Lesson 3 word cards (40), Deck A and Deck B (keep in order), Paper pads and scrap paper, 2 score sheets, Lesson 3 answer card. Set the timer for each step.

1. Both 4 min. Set the timer for 4 minutes. Read Using + and Using - in Drawing ideas. Plurals count, but other word forms do not. Draw Condensation for your partner; if they say 'condense', add a +.
2. Both 5 min. Set the timer for 5 minutes. Sketch Humus, Jet stream, Elevation, and Acid rain in the Plan it box. Show the other pair: what makes it THAT word and not a similar one?
3. Event Judge 6 min. Rapid-fire round with today's cards: set the timer for 2 minutes per team, once each. The Event Judge (from the watching team) shows each card only to the drawer. New rule: guessers call out 3 guesses before the drawer adds more.
4. Event Judge 10 min. Full round, pencil and paper only, 4 minutes each. Team 1 plays Deck A while a judge from Team 2 shows each card only to the drawer and marks the score sheet: correct, or passed with the reason. Then Team 2 plays Deck B, judged by someone from Team 1.
5. Team 2 min. Set the timer for 2 minutes. Use your score sheet to fill in Full round results: words correct, words passed, longest streak, and words to practice.

Check your work: Look at each passed word on your score sheet. Draw it again in 10 seconds for the other team. Compare your Plan it drawings with the answer card.

Word bank: Earth, water, and weather (40 words)

Acid rain **Air pressure** **Arctic** **Atmosphere** **Barometer** **Climate** **Cloud** **Cold front** **Condensation** **Cumulus Cloud** **Earthquake** **Elevation** **Equator** **Erode** **Estuary** **Evaporation** **Fossil** **Global warming** **Humidity** **Humus** **Hurricane** **Igneous rock** **Jet stream** **Lake** **Map** **Metamorphic rock** **Mineral** **Ocean** **Pollution** **Porous** **Precipitation** **Quartz** **Recycle** **River** **Sedimentary rock** **Soil** **Tornado** **Warm front** **Water table** **Weather**

Drawing ideas

Using +	Team says 'evaporate'? Draw + to make it longer: Evaporation.
Using -	Team says 'erosion'? Draw - to make it shorter: Erode.
Cold front / warm front	A line with triangles is a cold front. A line with half circles is a warm front.
Water table	Ground cut open with a line of water underground, and a well going down to it.
Estuary	A river flowing into the ocean, with marsh grass.
Porous	A rock or sponge full of holes, with drops going in.

Plan it: sketch a fast idea for Humus, Jet stream, Elevation, and Acid rain

Full round results

Words correct	Words passed	Longest streak	Words to practice

At home before next time: Do Independent Lab I3 (The Whole Word List) before Lesson 4. It uses all 5 word banks in your binder. Also look at a weather map on TV or online with a grown-up and find a cold front or a warm front. Case File: sketch the front you find in Case #3: Plus or Minus? (p. 10) for the Earth Sketcher badge, and get all 8 Plus or minus answers right for the Plus-Minus Pro badge.

Mock Tournament: 4 Minutes, 40 Words

TODAY I CAN

- I can follow the drawing rules: no letters, numbers, made-up codes, or hand gestures. The only symbols I use are arrows, - and +.
- I can take turns drawing and guessing with my team, and I know when to pass and move on.
- I know the whole official word list and can play a full 40-word, 4-minute round.

This is a practice tournament. You have 4 minutes to get as many of the 40 words as you can. Your coach marks the score sheet.

Today's steps: run it yourselves (27 minutes)

You need: Deck A: Lesson 4 mock deck (in score-sheet order), Deck B plus its score sheet, Paper pads, Lesson 4 answer card. Set the timer for each step.

1. Event Judge 2 min. Read The rules in one box out loud. Each team chooses its drawing order. Keep your handout face down until your round is over.
2. Event Judge 5 min. Set the timer for 4 minutes. Team 1 plays Deck A while Team 2 waits out of view, except one Team 2 player who judges: show each card only to the drawer and mark C or P with a reason on the score sheet.
3. Event Judge 5 min. Set the timer for 4 minutes. Team 2 plays Deck B the same way, using the Deck B score sheet, judged by one Team 1 player.
4. Team 5 min. Set the timer for 5 minutes. Score it: 1 point per correct word. Find your longest streak of correct words (the first tiebreaker) and count passes. Fill in Our results.
5. Team 8 min. Set the timer for 8 minutes. Fix-it round: each student takes 3 passed words and draws them again in 10 seconds for the team. The table picks the best idea for each.
6. Team 2 min. Set the timer for 2 minutes. Write your team's drawing order and the one reminder you need most in Look back.

Check your work: Ask your Event Captain for the answer card and recount your score together: 1 point per C, plurals count, and the longest streak breaks ties. Fix your totals if they don't match.

The rules in one box

Time	4 minutes to guess up to 40 words. Every team gets the same words in the same order.
Take turns	After each word, the next teammate draws. Everyone draws and guesses.
Drawer rules	No letters, numbers, codes, or hand gestures (a rule break makes the word a pass). Nodding yes or no is OK.
Allowed symbols	Arrows. A - to shorten a word, a + to lengthen it (refract + = refraction).
Pass	Anyone can pass. You cannot go back to a passed word.
Scoring	1 point per word. Plurals count; other word forms do not.

Score sheet (C = correct, P = passed)

#	Word	C / P	Reason passed	#	Word	C / P	Reason passed
1	Chromosome			21	Light		
2	Expand			22	Telescope		
3	Food web			23	Map		
4	Estimate			24	Vibrate		
5	Predator			25	Stem		
6	Sunrise			26	Mineral		
7	Photosynthesis			27	Scale		

#	Word	C / P	Reason passed	#	Word	C / P	Reason passed
8	Erode			28	Gas		
9	Amphibian			29	Energy		
10	Flight			30	Volume		
11	Botanist			31	Leaf		
12	Sound wave			32	Acid rain		
13	Muscle			33	Calorie		
14	Bird			34	Molecule		
15	Elevation			35	Waxing Moon		
16	Earthquake			36	Barometer		
17	Stomach			37	Forest		
18	Graph			38	Global warming		
19	Proton			39	Electricity		
20	Charge			40	Electron		

Our results

Correct	Passed	Longest streak	Time used

Look back

1. Which 3 words did your team pass? Draw a better idea for one of them on the back.

2. Our drawing order for the tournament:

At home before next time: Keep this sheet. Before the tournament, play the Lab I3 practice round again with family (2 minutes each). Review the full word list the morning of the tournament. Case File: play Case #4: The Home Tournament (p. 11) and get 10 or more correct in one round for the Speed Sketcher badge.

Lab I1: Space and Energy Words

THIS LAB HELPS ME

- I can draw and guess space words (like orbit, eclipse, waxing moon, constellation).
- I can draw and guess energy words: heat, light, sound, electricity, and magnets.
- I can use + and - to change a word (evaporate + = evaporation) and join two pictures for two-word terms.

Where: Home or an open Friday. You can do this alone or with your partner, with no adult needed. These 40 words are about space, heat, light, sound, electricity, and magnets. First make sure you know what each word means, then practice drawing it fast. Many are two words: draw both parts and connect them.

Steps (27 minutes)

You need: Scrap paper, 5 index cards, Timer. Set the timer for each step.

1. Me 4 min. Set a timer for 4 minutes. Read the word bank. Star every word you are not sure about. Read What the tricky words mean and check your starred words there.
2. Me 5 min. Set the timer for 5 minutes. Read Drawing ideas. On scrap paper, draw Revolve and Rotation, then a Waxing Moon and a Waning Moon. Is the lit side right?
3. Me 6 min. Set the timer for 6 minutes. Sketch Constellation, Insulate, Radiation, and Galaxy in the Plan it box. Each drawing should take 10 seconds or less, with no letters or numbers.
4. Both 7 min. Speed test: your guesser does not look at the handout. Go down the word bank and draw each word in 10 seconds while they guess. Keep a tally in Speed test. Stop after 7 minutes.
5. Me 5 min. Set the timer for 5 minutes. Make 5 flashcards for your 5 slowest words: word on the front, a faster drawing on the back.

Check your work: Show your Plan it drawings and flashcards to someone. If they guess a word in 10 seconds, it passes. Check the tricky moon and revolve drawings with the Lab I1 answer card in the Open Lab bin, or at the next Huddle.

Word bank: space and energy (40 words)

Charge Circuit Comet Conduction Constellation Crater Current Eclipse Electricity Galaxy Gravity Heat Insulate Light Lightning Magnet Meteor Moon Orbit Planet Pole Radiation Repel Revolve Rocket Rotation Season Shadow Sound wave Space Star Static Electricity Sun Sunrise Sunset Telescope Thunder Vibrate Waning Moon Waxing Moon

What the tricky words mean

Revolve	To move around another object. Earth revolves around the Sun.
Rotation	Spinning in place. Earth's rotation makes day and night.
Waxing / waning moon	Waxing: the lit part grows each night. Waning: it shrinks.
Comet vs meteor	Comet: an icy ball with a long tail that orbits the Sun. Meteor: a streak of light when a space rock burns up in our air.
Conduction	Heat moving through something by touching, like a hot pan handle.
Insulate	To slow heat (or electricity) from moving, like a mitten or a thermos.
Radiation	Energy that travels as waves, like sunlight warming your face.
Static electricity	A charge that builds up, like a balloon rubbed on hair.
Repel	Push away. Two same poles of magnets repel.

Drawing ideas

Revolve vs rotation	Revolve: Earth with an arrow going around the Sun. Rotation: Earth with a curled arrow spinning in place.
Waxing / waning moon	Waxing: lit on the right, getting bigger. Waning: lit on the left, getting smaller.

Eclipse	Sun, Moon, and Earth in a line, with a shadow.
Comet vs meteor	Comet: an icy ball with a long tail. Meteor: a streak falling through the sky.
Repel	Two magnets with arrows pushing apart.
Conduction	A pan on a stove with heat arrows going up the handle.

Plan it: sketch a fast idea for Constellation, Insulate, Radiation, and Galaxy

Speed test (tally marks)

Words tried	Guessed in 10 seconds	Too slow or passed

Bring to the next meeting: Bring your 5 flashcards and this lab to Lesson 2. Optional: on a clear night, look at the Moon with a grown-up and draw it. Is it waxing or waning?

Lab I2: Matter, Force, and Motion Words

THIS LAB HELPS ME

- I can draw and guess matter, force, motion, and measuring words (like friction, mass, velocity, thermometer).
- I can start with a quick 'starter picture' (a body, a landscape, the Earth) and use an arrow to point to the part that matters.

Where: Home or an open Friday. You can do this alone or with your partner, with no adult needed. These 40 words are about matter, forces, motion, and measuring. Many are easiest as a before-and-after picture with an arrow. Remember: no numbers on thermometers, scales, rulers, or graphs.

Steps (27 minutes)

You need: Scrap paper, 5 index cards, Timer. Set the timer for each step.

1. Me 4 min. Set a timer for 4 minutes. Read the word bank. Star every word you are not sure about. Read What the tricky words mean and check your starred words there.
2. Me 5 min. Set the timer for 5 minutes. Read Drawing ideas. In Before and after, draw Melt, Freeze, Expand, and Contract, each with an arrow from before to after.
3. Me 6 min. Set the timer for 6 minutes. Sketch Estimate, Quantity, Dissolve, and Compression in the Plan it box. Then draw Mass, Volume, and Gram so they look different from each other.
4. Both 7 min. Speed test: your guesser does not look at the handout. Go down the word bank and draw each word in 10 seconds while they guess. Keep a tally in Speed test. Stop after 7 minutes.
5. Me 5 min. Set the timer for 5 minutes. Make 5 flashcards for your 5 slowest words: word on the front, a faster drawing on the back.

Check your work: Look at every drawing: no numbers or letters anywhere? Show your Plan it drawings to someone; if they guess in 10 seconds, it passes. Then check with the Lab I2 answer card in the Open Lab bin, or at the next Huddle.

Word bank: matter, force, motion, and measuring (40 words)

Absorb Angle Balance Boil Clockwise Compass Compression Contract Degree Dissolve Energy Estimate Expand Flight Float Force Freeze Friction Gas Gram Graph Ice Liquid Mass Matter Measure Melt Meter Motion Pendulum Plastic Pull Quantity Ramp Scale Solid Temperature Thermometer Velocity Volume

What the tricky words mean

Mass	How much matter is in something. Measured on a balance.
Volume	How much space something takes up, like water in a measuring cup.
Gram	A small unit of mass. A paper clip is about 1 gram.
Velocity	Speed in a direction.
Friction	A force that slows sliding and makes heat.
Dissolve	When a solid mixes into a liquid and seems to disappear, like sugar in water.
Compression	Squeezing something into a smaller space.
Estimate	A careful guess about an amount.
Absorb	To soak up, like a sponge soaks up water.

Drawing ideas

Before and after	Melt: ice cube, arrow, puddle. Expand: small balloon, arrow, big balloon.
Friction	A shoe sliding on rough ground, with little heat marks.
Velocity	A car with a long arrow showing speed and direction.

Pendulum	A weight on a string swinging, with a curved arrow.
Clockwise	A clock face with no numbers and a curved arrow going the way the hands move.
No numbers	Thermometers, scales, rulers, and graphs have no numbers or letters.

Before and after: Melt, Freeze, Expand, Contract

Plan it: sketch a fast idea for Estimate, Quantity, Dissolve, and Compression

Speed test (tally marks)

Words tried	Guessed in 10 seconds	Too slow or passed

Bring to the next meeting: Bring your 5 flashcards and this lab to Lesson 3. Lesson 3 ends with a full 40-word round that uses words from every bank.

Lab I3: The Whole Word List

THIS LAB HELPS ME

- As a guesser, I can call out many related words fast and watch for my drawer's nod.
- I know the whole official word list and can play a full 40-word, 4-minute round.

Where: Home or an open Friday. You can do this alone or with your partner, with no adult needed. At the tournament any of the 200 official words can come up. In this lab you find your weak words, plan better drawings for them, and play a timed practice round like the real thing.

Steps (28 minutes)

You need: Your 5 word bank pages, Scrap paper, Timer. Set the timer for each step.

1. Me 10 min. Set a timer for 10 minutes. Read all 5 word banks. Put a check next to each word you can draw in 10 seconds. Write the words without a check in the first column of Weak words.
2. Me 7 min. Set the timer for 7 minutes. For 8 of your weak words, plan a fast drawing on scrap paper and write your idea in Weak words. Use a starter picture and an arrow, or two joined pictures.
3. Both 4 min. Practice round 1: set the timer for 2 minutes. Your guesser does not look. Draw the Practice round words in order. Mark C (correct) or P (passed) for each.
4. Both 4 min. Practice round 2: switch jobs, or play again from the top. As the guesser, call out many related words fast and watch for a nod. Mark C or P again.
5. Me 3 min. Set the timer for 3 minutes. Count each round's score and longest streak of correct words. Fill in Our rounds.

Check your work: Did your second round beat your first? Draw your passed words again in 10 seconds. If they still don't get guessed, use the Drawing ideas boxes in your binder, or ask at the next Huddle.

Weak words

Word	My fast drawing idea

Practice round (20 words from all 5 banks; guesser, don't look)

#	Word	C / P	#	Word	C / P
1	Fungus		11	Earthquake	
2	Endoskeleton		12	Comet	
3	Friction		13	Pollen	
4	Humidity		14	Muscle	
5	Shadow		15	Degree	
6	Chemist		16	Tornado	
7	Pendulum		17	Magnet	
8	Herbivore		18	Oxygen	
9	Crater		19	Ice	

#	Word	C / P	#	Word	C / P
10	Fossil		20	Habitat	

Our rounds

Round	Correct	Passed	Longest streak
1			
2			

Bring to the next meeting: Bring your checked word list and Our rounds to Lesson 4 (the mock tournament). Aim to have every word checked by then.
